INVENTORY REQUIREMENTS - Q & A

At its November 2012 meeting, the Texas State Board of Pharmacy (TSBP) amended the requirements for inventories taken by pharmacies. The Board has been receiving numerous questions about the changes to the inventory requirements. This column will address those questions and answers.

Q: What inventories must now include Tramadol (Ultram)?
A: Tramadol must be included in all inventories taken after January 1, 2013. These inventories are any:
- initial (opening) inventory
- annual inventory
- change of ownership inventory
- closing inventory
- change of PIC inventory

Q: Is tramadol now a controlled substance?
A: No, currently, tramadol is a dangerous drug. However, TSBP is seeing abuse and thefts of tramadol from pharmacies.

Q: How often may a prescription issued for tramadol be refilled?
A: Refills for tramadol may be dispensed only in accordance with the prescriber’s authorization as indicated on the original prescription drug order. If there are no refill instructions on the original prescription drug order (which shall be interpreted as no refills authorized) or if all refills authorized on the original prescription drug order have been dispensed, authorization from the prescribing practitioner shall be obtained prior to dispensing any additional tramadol. Prescription drug orders for dangerous drugs (including tramadol) or nonprescription drugs may not be refilled after one year from the date of issuance of the original prescription drug order. If one year has expired from the date of issuance of the original prescription drug order, authorization must be obtained from the prescribing practitioner prior to dispensing any additional quantities.

Q: Are invoices for tramadol required to be filed with other invoices for controlled substance?
A: No. Invoices for tramadol should be filed with the invoices for dangerous drugs.

Q: What drugs are required to be inventoried for a change of PIC inventory?
A: A change of PIC inventory taken prior to June 1, 2013, must include the following:
- all Schedule II controlled substances;
- all dosage forms containing pentazocine;
- all dosage forms containing phentermine;
- all dosage forms containing diazepam;
- all dosage forms containing phendimetrazine;
- all dosage forms containing codeine;
- all dosage forms containing hydrocodone;
- all dosage forms containing alprazolam;
- all dosage forms containing triazolam;
- all dosage forms containing butorphanol;
- all dosage forms containing nalbuphine;
- all dosage forms containing carisoprodol; and
- all dosage forms containing tramadol.

On or after June 1, 2013, a change of pharmacist-in-charge inventory must include ALL controlled substances; all dosage forms containing nalbuphine (e.g., Nubain); and all dosage forms containing tramadol (e.g., Ultram).

2013 Texas State Board of Pharmacy Continuing Education Webcast Schedule

Are you a new pharmacist-in-charge (PIC) or just need a refresher on the requirements and responsibilities as PIC? The Texas State Board of Pharmacy (TSBP) is hosting free one-hour webcasts for individuals interested in learning about the responsibilities of the PIC, primarily in community pharmacy settings. These programs will cover the same information; please only register for one session. One-hour of TSBP approved continuing education is available for individuals attending the webcast. Registration space is limited. Register at www.tsbp.state.tx.us/ce_program.htm or by clicking on the day and time below that you want to attend:

April 11, 2013 10:00 a.m.
July 16, 2013 10:00 a.m.
October 10, 2013 10:00 a.m.

After registering you will receive a confirmation email containing information about joining the training.
After the Board obtains evidence of alleged violations, a licensee is sent a preliminary notice letter of the Board’s intent to institute disciplinary action. The licensee then has an opportunity to show compliance with the law in an informal conference with the Board staff (Executive Director/Secretary, Board Legal Counsel, and other staff at the discretion of the Executive Director and Board Legal Counsel). If the licensee cannot show compliance with the law and desires to dispose of any pending allegations, the licensee may consent to the entry of an “Agreed Board Order.” The licensee must agree to the terms of the order and the order must be approved by the Board. It should be noted that while there is agreement on the part of the licensee to the entry of an “Agreed Board Order,” there is neither admission nor denial of guilt with respect to any matters that have come to the attention of the Board.

If a licensee, or the Board does not agree to terms of the “Agreed Board Order” or if the licensee does not wish an informal conference, a disciplinary hearing is scheduled before an Administrative Law Judge from the Office of Administrative Hearings. The Administrative Law Judge, after hearing all evidence in the matter will make a recommendation to the Board for action to be taken. The Board then makes a decision in the case, which is documented by the entry of a “Board Order.”

On the finding of the existence of grounds for discipline of a licensee, the Board may suspend, revoke, restrict, fine, refuse to issue or renew, probate, reprimand, cancel, or retire a license.

The Board has directed that “Agreed Board Orders” and “Board Orders” be published in the NEWSLETTER. Although every effort is made to assure that the following information is correct, you should contact the Board’s office to confirm the accuracy of the listing before making any decision based upon this information. Copies of specific orders may be obtained for a fee, upon written request.

# Review of FY2012 Dispensing Error Disciplinary Orders

During the last fiscal year (FY2012), the Texas State Board of Pharmacy entered 105 disciplinary orders alleging that at least one dispensing error had occurred. This represents a 5% decrease from the previous year of FY2011 for this type of order. Information regarding these types of disciplinary orders is depicted in the chart below:

Disciplinary orders for FY2012 included some of the following errors:

- **Wrong Drug**
  - Prescription issued for: Clomiphene 50 mg
  - Incorrectly dispensed as: Clomipramine 50 mg
  - Other examples: Prena Plus, Premarin Cream, Singulair 10 mg, Phena Plus, Permethrin Cream, Simvastatin 10 mg

- **Wrong Strength**
  - Prescription issued for: Levothyroxine 20 mcg
  - Incorrectly dispensed as: Levothyroxine 200 mcg
  - Other examples: Prednisone 5 mg, Fluphenazine 1 mg, Prednisone 50 mg, Oxybutynin 10 mg, Prednisone 10 mg, Oxybutynin 10 mg ER, Oxybutynin 10 mg

- **Wrong Directions**
  - Prescription issued for: Tramadol 50 mg
  - Incorrectly dispensed as: Take 3 tablets twice daily for pain
  - Other examples: Lortab Elixir, 2 mL every 4 hours as needed, 2 teaspoonsful every 4 hours as needed, KCL 10 mEq ER, Take 1 capsule four times a day, Zantac syrup, 1 1/2 mL twice daily, Take 1 capsule every other day, 1 1/2 teaspoonsful twice daily

Approximately 31% of the 135 alleged dispensing errors that resulted in disciplinary orders may have been detected (and thus prevented) if a pharmacist had verbally counseled a patient or patient’s agent. In addition, 19% of the 135 errors may have been detected if the dispensing or consulting pharmacist had evaluated the medication dosage and appropriateness of usage, as currently required for all prescriptions, before dispensing to the patient. An additional 22% of the 135 errors may have been detected if the dispensing pharmacist had closely examined the label on the medication bottle and its contents prior to dispensing. Most errors could have been prevented if a pharmacist thoroughly counseled the patient, including reading the label on the container, opening and examining the container and examining the drugs and conducting a thorough drug regimen review. The Board strongly encourages pharmacists to read the drug name on the label and the directions for use, as well as look inside the container, before dispensing the medication to the patient/patient’s agent. Pharmacists are also encouraged to review errors that may have occurred in the pharmacy, evaluate their practice setting, and then make any changes necessary to prevent errors from occurring in the future.

Compliance Reminders

Library

- Pharmacist-in-charge (PIC) must ensure that the pharmacy’s library is complete, with all up-to-date hardcopy and/or electronic references.
- PIC must ensure that pharmacy staff is able to access all references at all times, including electronic references.

Environment

- PIC must ensure that the pharmacy is orderly and clean, including the sink, compounding areas, and measuring tools.
- PIC must ensure that the pharmacy has policies/procedures relating to security which assure effective controls against theft or diversion of drugs.

Labeling

- PIC must ensure that prescription labels are complete, including:
  - beyond-use-date; and
  - the statement: “Do not flush unused medications or pour down a sink or drain.”

Patient Counseling

- PIC must ensure that all patients presenting a new prescription receive verbal counseling from a pharmacist and that a pharmacist or pharmacy technician/trainee offers counseling to all patients obtaining refills.

Questions

- TSBP maintains a compliance hotline line from 8:00 a.m. – 5:00 p.m. Monday through Friday. Pharmacists are encouraged to call 512-305-8070 with any questions regarding TSBP laws and rules.
