Additional Requirements for Class B, C, D, and E Pharmacies

Class B Pharmacies

Include Texas Department of Health Radiation Control Number. Include detailed floor plans and qualifications of the nuclear pharmacist(s).

Class C Pharmacies

Include applicable Texas License Number where required. If owned/operated by a Hospital Management Firm, include a copy of the contract between the hospital and the management firm (or a notarized statement to that effect, signed by the hospital and management firm). If a contract is terminated between the hospital and the management firm, the existing management firm must submit written notification to the Board stating the termination date. Until the Board receives this notification and the applicant meets the above requirements, a pharmacy license will not be issued.

Class D Pharmacies

A copy of the clinic’s policy and procedure manual and drug formulary must be submitted. The original manual must be maintained in the clinic. This manual must be in compliance with Rule 291.93(g). The name and Texas license of the staff physician must be submitted.

Class E Pharmacies

A Class E (Non-Resident) Pharmacy must be licensed as a pharmacy in the state in which it is located. A space for recording this license number is provided on the back of the license application. With the application, the pharmacy must also include a copy of the report of the most recent pharmacy inspection by the state board of pharmacy in the state in which the pharmacy is located. Also include a letter from that state board verifying that the licensure status of the pharmacy and the pharmacist-in-charge is valid and in good standing.

When the Pharmacy Opens

License Notification Letter

Upon approval of the pharmacy license, the Board will send a pharmacy license notification letter which contains the pharmacy license number. The bottom portion of this letter is a section which must be completed and returned to the Board office AFTER the pharmacy opens.* The licensee must indicate the actual date of the opening on this notification section. The pharmacy license will be mailed to the pharmacy address after this “Notification of Opening” has been received in the Board office.

*Note: The pharmacy license will not be sent until the Board receives this notification.

Inventory Requirements

New Class A (Community) or Class C (Institutional) pharmacies must take an inventory of all controlled substances, and all dosage forms containing butorphanol (e.g., Stadol®), nalbuphine (e.g., Nubain®) and carisoprodol (e.g., Soma®) on hand on the opening day of business. If a Class A or C pharmacy commences business with no controlled substances or products containing butorphanol (e.g., Stadol®), nalbuphine (e.g., Nubain®) and carisoprodol (e.g., Soma®) on hand, the pharmacy must record this fact as the initial inventory. For complete inventory requirements, see Board Rule 291.17.
New Pharmacy License Application Procedures

If the Pharmacy Does Not Open

1. Send a letter of explanation to the Board office stating that the pharmacy never opened and request the license be closed.
2. Notify all other agencies from which licenses, permits, or registrations have been obtained or contracts signed such as the State Comptroller, Texas Department of Health Vendor Drug Program, DEA and DPS.

New Pharmacy License Application Procedures

DEA Affidavit System

For your convenience, the Texas State Board of Pharmacy has implemented a DEA affidavit system. An affidavit form is included with the pharmacy license application. Use of this procedure may expedite the issuance of the DEA registration. Those pharmacy applicants using this system must:

1. First complete the application for your pharmacy license and submit it to the Texas State Board of Pharmacy.
2. Complete the application for your Department of Public Safety (DPS) registration and submit it to DPS.
3. Complete the “DEA Affidavit for New Pharmacy” form (after you have received your TEXAS State Board of Pharmacy license number and your DPS registration number). DO NOT send the affidavit to the Pharmacy Board.
4. Attach the original signed and notarized affidavit to the completed DEA application and send it by U.S. Postal Service to:
   
   Drug Enforcement Administration  
   Registration Unit  
   PO Box 28083  
   Central Station  
   Washington, DC 20038-8083  
   Voice: (800) 882-9539 (24-hour automated system)  
   Web Address: www.deadiversion.usdoj.gov

A DEA registration will be issued on the basis of the signed affidavit. The appropriate DEA divisional office will routinely verify the information contained in the affidavit. Any affidavit found to be incorrect by the DEA will result in immediate revocation of the DEA registration and evaluation for further proceedings against the person furnishing false information.
