Violations NOT Resulting in Warning Notices

- Individuals performing technician duties without an active registration.
- Technicians performing technician duties with no pharmacist on site.
- Technicians performing pharmacist-only duties with no pharmacist on site (results in emergency temporary suspension hearing).
- Pharmacists who do not verbally counsel a patient on a new prescription.

Violations NOT Resulting in Warning Notices

- Pharmacy is not able to produce 2 consecutive annual inventories.
- PIC falsifies response to a Warning Notice.
- Pharmacies dispensing/shipping prescription drugs into other states without holding a pharmacy license in that state.
- Pharmacies compounding sterile preparations without proper licensure (e.g., Class A who should have a Class A-S pharmacy license).

Violations NOT Resulting in Warning Notices

• Egregious Conditions

- Dispensing CII's pursuant to prescriptions not issued on an Official Form;
- Excessive quantity of out-of-date stock (i.e., more than 25% of the inventory);
- Pharmacy closed and did not notify TSBP of closing;
- Operating without a PIC for an extended period of time (i.e., 3 months or more).

Violations NOT Resulting in Warning Notices

• Continuing threat – For example:

- Impaired pharmacist on duty; or
- Sterile compounding pharmacies who have extensive non-compliance with Board Rule 291.133 and will not voluntarily agree to “*cease and desist*” sterile compounding until conditions have been corrected.

- Both of these scenarios would result in an Emergency Temporary Suspension Hearing.
