- Discussion Concerning Maintaining a Perpetual Inventory of Schedule II Drugs in Class A and Class A-S Pharmacies (Tab 20)

Ms. Fisher presented the current rules concerning inventory requirements (§291.17). She explained that Class C Pharmacies have been required to maintain a perpetual inventory of all Schedule II controlled substances for over 20 years, whereas Class A Pharmacies have never been required to maintain a perpetual inventory of Schedule II controlled substances. Ms. Fisher also mentioned that since 2001, TSBP has been tracking the reports submitted to the Board regarding thefts and losses of controlled substances due to employee pilferage. The number of dosage units of all controlled substances reported stolen by employees is averaging approximately one-half million dosage units per year. Hydrocodone-containing tablets are the drugs most commonly lost/stolen.

Ms. Fisher stated that a perpetual inventory of Schedule II controlled substances, particularly Hydrocodone-containing tablets, would provide Class A and Class A-S Pharmacies a valuable tool to track purchases and disposals of these drugs, which in turn, would allow the pharmacies to detect thefts/losses more quickly.

She stated the current ratio restriction creates an obstacle when attempting to place the technician student in a pharmacy for their intern training rotation.
